

# PS. Recruit

## Helping to fill your Senior and Niche Public Sector roles

### Finders

Locating the best applicants for your role

Our Finders service offers you ways and means of having the right people look at your jobs.

Drawing upon years of experience in high level recruitment we carry out extensive, targeted searches utilising internal candidate pools and curated external directories. The service includes -

- Candidate search and identification - utilising industry standard tools as well as bespoke, in-house systems and NEREO networks.
- Direct push of the vacancy to identified applicants.
- Collation of responses and progress report.

**The Finders service - £1500 (+VAT)**

### Keepers

Ensuring the best applicants for interview

Once a suitable candidate list has been drawn up you don't always have the time to filter this down to those you wish to interview.

NEREO's Keeper service can take care of this for you.

As well as providing all elements of the Finders service we will -

- Prequalify the applicants
- Shortlist those who pass the initial vetting
- Finally provide you with a list of individuals ready for you to interview safe in the knowledge that they have met the highest standards to that point.

**The Keepers service - £3000 (+VAT)**

A range of bolt on services such as Psychometric Testing, Interview Arrangement, Interview Hosting and External Marketing of vacancies are available priced on a per vacancy basis.

For more information and to discuss making use of the services please email - [contact@psrecruit.org.uk](mailto:contact@psrecruit.org.uk)
