

## TWO-DAY WORKSHOP

# OGC MSP PROGRAMME MANAGEMENT TRAINING

### Key Learning Objectives

- Knowledge of the MSP programme management approach and governance arrangements that will help any project and programme in becoming successful
- To successfully identify and implement projects and programmes
- To understand the key stages and steps within a programme management approach
- Develop your understanding of how using practical project management tools and techniques (scoping, is/is not analysis) can achieve improved services and outcomes

### Target Group

Operational Managers

### Content

This two-day learning module will provide participants with the programme management approach and governance arrangements that will help any programme in becoming successful.

The approach allows flexibility by being both pragmatic and robust enough to cover all typical projects and programmes. This flexibility is essential to the success of all projects.

There will be an electronic guide containing **Tools and Methods** which will be referred to and accessed throughout the course.

The OGC MSP **Programmes Management training module** will provide delegates with knowledge of the programme management approach and governance arrangements that will help organisations deliver effective change.

The OGC MSP approach allows flexibility by being both pragmatic and robust enough to cover all typical change management and organisational transformation activities.

## **The session will take the attendees through**

- OGC Programme Management Framework Approach
- Portfolio Management
- Outcome and Benefits Modelling
- Tools and Techniques
- Programme Documentation

## **Methodology**

The programme will be as pragmatic as possible - based around practical exercises; examples from other authorities and the private sector; sharing our own experiences; and using a number of tried and tested tools.

Participants will be given free access to more than fifty tools, templates and examples when they have completed the two-day programme.

## **Workshop Facilitator**

David Leask, Consultant, NEREO.
